Universitas Sriwijaya
Angsana (Pterocaspus Indicus) Blossom
Message

Dear Readers,

Sriwijaya University, one of the major state universities in South Sumatera Province, Indonesia, was established on October 29, 1960. Today, Sriwijaya University offers Diploma, Bachelor, Masters, and Doctoral degrees in many faculties of economics, law, engineering, medicine, agriculture, teacher training and education, mathematics and natural sciences, social and political science, computer sciences, and public health. Currently there is an enrollment of over 32.073 students on two main campuses located in Palembang, the capital city of South Sumatera, and in Inderalaya, approximately 32 km away.

With its motto ‘Knowledge to devote’, Sriwijaya University has a vision “To become an outstanding research-based university with excellent competencies in science, technology, and art by 2025”

I hope the information in this booklet will be useful to the readers and I am pleased to invite you to become our partners in services and development.

Thank you very much.

Prof. Dr. Ir. H. Anis Saggaff, MSCE

Rector

Sriwijaya University

Being one of the major state universities in Indonesia, the first Sriwijaya University’s initial campus is located in Palembang, the Capital of South Sumatera Province, the second campus is located in Indralaya, approximately 32 km away from Palembang.

Sriwijaya University is one of the fast-growing research, teaching and learning centers which has contributed significantly in the development and advancement of sciences, technologies, arts and cultures. Its contributions to produce recognized and qualified scholars in various fields of studies have made Sriwijaya University as one of the most influential state universities in Indonesia. Over 32,073 students are registered in 2015/2016. Sriwijaya University has a vision to become an outstanding research-based university with excellent competencies in science, technology, and art by 2025. Sriwijaya University has also been developing itself as a recognized university in Indonesia and across the world.
The idea to establish a college in South Sumatera had been around since the early 1950s and was prompted on Independence Day celebration on August 17, 1952. Initiated by some community leaders, the idea was transformed into an agreement to form a Panitia Fakultet Sumatera Selatan (South Sumatera’s Faculty Committee). At the end of August 1952, the faculty of economics was established under some considerations. Thus, Panitia Fakultet Ekonomi Sumatera Selatan (South Sumatera’s Faculty Committee for Economics) was set up and then managed by a foundation established on the 1st of April 1953. It was named Yayasan Perguruan Tinggi Syakhyakirti (Syakhyakirti Higher Education Foundation).

This Faculty was officially opened on October 31st, 1953 in a ceremony attended by Mr. Hadi, Secretary General of the Ministry of Education Teaching and Culture (KDP), Drg. M. Isa (Governor of South Sumatera), Bambang Utoyo (Commander of the Sriwijaya II TT), and Ali Gathmyr (Chairman of the Parliament of South Sumatera).

The Foundation of Higher Education Syakhyakirti continued the efforts to establish the university by Organizing Panitia Penyelenggaraan Fakultas Hukum (Law Faculty Committee). It was inaugurated as ‘Faculty of Law and Public Knowledge’ on November 1, 1957, coinciding with the celebration of Dies Natalis IV of Economics Faculty.
The progress was sustained by the help of Military Authorities Territorial II Sriwijaya that provided financial assistance to construct a permanent building of Syakhyakirti Higher Education Foundation in Bukit Besar (now Bukit Besar’s Campus of Sriwijaya University). The cornerstone laying ceremony took place on October 31, 1957.

The next effort was state validation of the existing college. With the persistent efforts of community leaders of South Sumatera, like Colonel Harun Sohar (A Commander as well as Chairman of Paperda TT II / Sriwijaya) and A. Bastari (Governor), the obstacles of building the university could be overcome. Then, in December 1959, a delegation was sent to Jakarta to meet the Minister of KDP (Mr. Moh. Yamin) where they managed to obtain the Government willingness guarantee for taking over Syakhyakirti college to become a state university. Under the Government Regulation no. 42 of 1960 dated October 29, 1960 (State Archive year 1960 no.135) Sriwijaya University was officially inaugurated on the 3rd of November 1960 and President Sukarno ceremonially signing the charter witnessed by Minister of KDP (Mr. Priyono) and several Ambassadors of the fellow countries. Drg. M Isa was appointed with Presidential Decree No. 696 / M of 1960 dated 29th of October 1960 as the first President of the University.

To meet the development demands, Sriwijaya University planned to expand the campus area by opening an area of 712 hectares in Indralaya, Ogan Komering Ilir (Now Ogan Ilir-OI), in 1982. The development of this new campus building started in 1983. The development of the campus started in 1989 and ended in 1993.

The South Sumatera’s Governor at that time, Ramli Hasan Basri H, gave his inaugural lecture on Indralaya campus on September 1, 1993. The utilization of the facilities of Sriwijaya University in Indralaya was fully implemented with the issuance of the Decree of the Rector in January 1995 which stipulated that started from February 1, 1995 all activities of administration and most of the academic activities of Sriwijaya University were held on Indralaya campus. The Inauguration of Sriwijaya University’s new campus in Indralaya was officially held on March 6, 1997 by President Suharto.

Campus Locations and Facilities

The campus is located in Palembang (Palembang campus) and Indralaya (Indralaya campus).

1. **Palembang Campus:**
   a. Jl. Srijaya Negara Bukit Besar, Palembang, South Sumatera, Indonesia 30139
   b. Faculty of Medicine:
      Jl. Dr. Mohd. Ali Komp. RSMH Palembang, South Sumatera, Indonesia 30126
   c. Graduate School of Sriwijaya University:
      Jl. Padang Selasa No.524 Bukit Besar, Palembang, South Sumatera Indonesia 30139

2. **Indralaya Campus:**
   Jl. Raya Palembang-Prabumulih Km. 32, Indralaya Ogan Ilir 30662, South Sumatera, Indonesia

The intercampus transportation for students and staffs are Buses (Unsri’s buses and Trans musi buses) and Trains. For internal transportation within Indralaya, the campus offers free shuttle buses.

**Student Facilities:**
1. Libraries
2. Sport Venues
3. ICT Services
4. Dormitories and Boarding
5. Student Center
6. Health Clinic
7. Campign Ground
VISION
To become an outstanding research-based university with excellent competencies in science, technology, and art in 2025

MISSION

1. To provide a quality of higher education institution and to produce educated people who could implement, develop, and discover science and technology, and/or art;

2. To provide, advise, and develop higher education institution for improving empiric studies, theories, concepts, methodologies, models, new information or new procedure to enrich science and technology, and/or art;

3. To provide, advise, and develop community services for implementing and applying science and technology as its significant contributions for public welfare; and

4. To provide modern, efficient, accountable, and transparent administration of higher education.
Faculty of Economics

The Faculty of Economics was established on October 31, 1953.

Vision

To become an outstanding faculty of economics in ASEAN in the second decade of the 21st century.

The Faculty of Economics consists of three departments; Department of Accounting, Department of Economic Development, and Department of Management. The faculty is committed to providing a fulfilling education for the students through its study programs, and also to continue pursuit of providing the department a center of excellence for its academic research and education.
**Faculty of Economics offers the following programs**

Faculty of Medicine

The Faculty of Medicine was established on October 2, 1962.

Vision

To become an outstanding medical education institution in Southeast Asia and the top 60 by 2020.

The Faculty of Medicine offers Bachelor, Masters, and Specialist programs in numerous medical areas. There are numerous collaborations with institutions and associations, both national and international. With more than 50 years of experience in medical education, the Faculty of Medicine will be the center of excellence for facilitating a qualified education and research.

The School of Graduate Program of Sriwijaya University

The Graduate Programs of Sriwijaya University for monodicipline knowledge are managed by each faculty which has been informed in previous pages. While for the multidicipline knowledge, the graduate programs are managed by The School of Graduate Program of Sriwijaya University. In line with the vision of Sriwijaya University, the objective of the graduate program is to offer postgraduate training programs for the advancement of human capital through excellent education and research.
The Graduate Program of Sriwijaya University offers Masters, Doctorate, and Master Double Degree/International Programs with multidiscipline backgrounds as follows:

<table>

Research Institutes

Researchers of Sriwijaya University get involved actively in various areas of expertise. They carry out the following experiments as follows:

- Development Study Center
- Environmental Study Center
- Demography Study Center
- Sociocultural Study Center
- Woman Study Center
- Energy Study Center
- Spatial Planning Study Center
- Land Water Management Study Center
- Traditional Food Study Center
- Wildlife Study Center
- Disaster Study Center

Sriwijaya University serves in disseminating experimental results in technology and knowledge carried out by its researchers. This activity encompasses social responsibilities of university to give benefits for the public. Several centers have been established, such as:

- Community Service Center
- Management Center
- Business Indicator Development and Entrepreneurship Center
- Science and Technology Application and Diffusion Center
- Disaster Management Coordination Center
- Public and Regional Development Center.

Sriwijaya University has been prepared for those strategies, e.g. becoming a member of a consortium for conducting any international educational activity, internationalizing the curriculum to reflect international discourse, establishing research links with overseas institution, establishing a joint study program and introducing quality researches to scientific communities. Sriwijaya University has also proudly marketed its study programs or departments by commercializing their alumni that have successfully worked in other parts of the world.

Sriwijaya university has also been creating some programs to get internationalized, such as community service short programs, students and lectures exchange programs, credit transfer programs.

These are international programs offered by Sriwijaya University:

The Double Degree Program
Integrated Food Production and Planning Management (Mie University, Japan), Integrated Lowland Management and Planning (IHE-Unesco, Delft), Energy and Environment (King Mongkut’s University of Technology, Thonburi, Thailand).
Collaborations
- Australian Center International Agricultural Research (ACIAR)
- GIZ (Gesellschaft Fur Fur Internationale Zusammenarbeit)
- Hamm-Lippstadt University, Germany
- Hanoi University of Agriculture, Vietnam
- Institute of Guangdong Entomological, China
- The International Rice Research Institute
- Japan Agency for Marine-Earth Science and Technology (JAMSTEC)
- JICA-Japan International Cooperation Agency
- King Mongkut University of Technology Thonburi
- Southern Taiwan University of Science and Technology (STUST)
- University of Warsaw, Republic of Poland
- University of Technology Malaysia
- University of Walailak Thailand
- University of Cukurova, Faculty of Agriculture, Turkey
- University of Griffith
- University of Hokkaido
- University of Kasetsart Thailand
- University of Maastricht - Faculty of Health Medicine and Life Sciences, Netherland
- University of Naresuan
- University of Ohio, USA
- etc
PUR-PLSO of Sriwijaya University has competence in suboptimal land development and management

Vision of PUR-PLSO

As the Development Center for Excellence and Leading Suboptimal Land Science and Technology

Missions of PUR-PLSO

1. Creating and developing leading sciences and technologies at suboptimal
2. Implementing the leading science and technology of suboptimal land by creating synergical partnership with user community and
3. Improving and developing collaboration network in suboptimal land science and technology at national and international levels.
Products and Services

Products which are produced by PUR-PLSO of Sriwijaya University, among others, are snake-head fish processed products (dry pempek, fish condiment, dry tekwan), swamp buffalo processed products (milk pulo, yogurt, milk candies), pegagan duck processed products (diverse tastes of salty egg, smoked duct), livestocks feed from local lowland swamp materials, fishes and lobsters seedling of lowland swamp, bio-pesticides (bioverin, bmetharin, biofitalik, biopara), biofertilizer, superior compost, flooding resistance rice variety, specific equipments and machineries for harvest and postharvest operation for lowland swamp.

Services offered by PUR-PLSO of Sriwijaya University are analysing/testing physical and chemical properties of soil and water, consultation related to extension service and training in term of pest and disease control for lowland swamp crops and fishes, service for pests and pathogens identification of lowland swamp crops and fishes, training in compost and biofertilizer production as well as training in breeding and cultivation of lowland swamp crops and fishes.
PUR-PLSO has already collaborated with some institutions both national and international levels. Those partner institutions are as following: (1) PT. Pupuk Sriwidjaja, Palembang, South Sumatra, (2) Pusat Kajian Hortikultura Tropika LPPM Institut Pertanian Bogor, West Java, (3) International Rice Research Institute (IRRI), Philippines and (4) Japan International Cooperation Agency (JICA) and Kyoto University and Nippon Koei, Japan, (5) Water Resources Research, Vietnam, (6) District Government and City Government in South Sumatra as well as South Sumatra Provincial Government, and (7) Agro Techno Park (ATP) of Research and Technology State Minister at Gelumbang.

Centre of Excellence (CoE) for Multimodal Transportation
Sriwijaya University

Preliminary

The Centre of Excellence Multimodal Transportation is an organization formed and approved on 1 April 2013 by the Rector Decree of Sriwijaya University (Number 0085/UN9/DN/2013) about formation of the consortium team multimodal transportation study. Joining the team as a member of the consortium is the name assigned by some leaders of institutions. Agencies involved, namely: Sriwijaya University, Institute of Education and Training Ground Transportation, Office of the National Roads Development III, Transportation Communications and Information Department of South Sumatera, Transportation Department of Palembang, Transportation Communication and Information Department of Banyuasin regency, Planning and Developing city government, Indonesian Train Company, Agricultural Economic Association of Indonesia.

Vision

To become a Centre of Excellence Multimodal Transportation which are integrated, effective and efficient Transport.

Missions

1. To create and develop science and technology flagship Multimodal Transport
2. Implementing Science Multimodal Transport by building synergistic partnerships between government, the community of users, and the private sector transportation employers and ensuring the dissemination of science and technology Multimodal Transport until a paradigm shift to the Multimodal Transport
3. Enhancing and developing a network of science and technology cooperation in the field of multimodal transport nationally and internationally
Targets

1. To encourage the competitiveness of the organization by improving the ability of the Human Resources (HR) in developing and optimizing capabilities in an effort to build Multimodal transport system,
2. To spread network of cooperation among organizations both nationally and internationally that focus on research for the development and the implementation of multimodal transport,
3. To intensively coordination with other research institutions so that there is no overlap of activities of research,
4. To establish periodic input to government policy-making in the context of the development of multimodal transport, and
5. To establish periodic inputs to the government in order to manufacture

Activities have been carried out

1. Training of Preparing Patent Proposal
2. Dialog between 6 universities and Indonesian Port Corporation
3. Public Dialog “Reduction of Fuel Subsidies through Sustainable Transport Development in favour of Public Transport”
Research topic offered for collaborations

1. Multimodal Public Transport
2. Multimodal Freight Transport
3. Rice Supply Chain in South Sumatera
4. Road Network Mapping GPS Based in South Sumatera
5. River Transport Planning
6. Transport Demand Management
   a. Average Vehicle Occupancy
   b. Park and Ride System
   c. Increasing Load Factor of BRT
7. Public Transport Authority

Type of collaborations

1. Training
   a. Port Education
   b. Traffic Impact
   c. Key Performance Indicator of Transportation in District In South Sumatera
2. Research Innovative
3. Empowering Gender in Transportation

Centre of Excellence (CoE) for Sriwijaya Study
Sriwijaya University

Vision

As a centre of research and information related to Sriwijaya at international level in 2025

Missions

1. Studying the civilization of Sriwijaya, including pre- and post Sriwijaya.
2. Conducting advocacy activities
3. Reviewing the revitalization of Sriwijaya civilization for the benefit of the present and future of the nation
4. Documentation of study related to Sriwijaya
5. Publication of study related to Sriwijaya
6. Co-operation in research, documentation and publication of Sriwijaya at local, regional and international levels
Sriwijaya Kingdom

Between the late 7th to early 11th century, Sriwijaya rose to become a hegemon in Southeast Asia. The Sriwijayan empire was a coastal trading centre, its influence far beyond of Southeast Asia. It was benefited from the lucrative maritime trade between China & India. Sriwijaya maintained close relations with the Pala Empire in Bengal, Sriwijaya emperor, Balaputra, dedicated a monastery at the Nalanda University (Nalanda inscription, 860). The migration to Madagascar accelerated in the 9th century, when sriwijaya empire controlled much of the maritime trade in the Indian Ocean. Sriwijaya as a Vajrayana Buddhist teaching centre since 7th century
Relevant Topics for Cooperation & Collaborations

In General:

• Socio Cultural
• History
• Architecture
• Anthropology
• Object of Cultural Heritage

Special Topics:

• Historical relationship between Indonesia and the Philippines in the Sriwijaya era
• Architectural style in the Sriwijaya
• Sriwijaya as a maritime empire that respected in its time

Current Activities
Traditional Houses

BESEMAH HOUSE

LIMAS HOUSE

KALINDANG OF LAMBAN TUHA
## Intellectual Property Right Center

The activities of the center are drafting patent training, patent and/or copyright, registering and conducting business gathering for marketing patents.

Sriwijaya University staffs have invented 90 patents, consists of 24 granted patent and 66 registered patents. Some of them are as follows:

<table>
<thead>
<tr>
<th>Inventor / Email</th>

</tbody>
</table>
**Patent Products**

Aromatization of rice using liquid carbon dioxide

Instant coffee-cube and the method of processing with the addition of dextrin

Bioinsecticide (Bioverin and Metarhin)

Control system of sunshine in green house using fiber glass

Before Processing

After Processing

After boilling

The washing off chloramphenicol from fresh shrimp using the supercritical carbon dioxide

Instant tekwan

Antioxidant and antibacteria of Gambir
UNSRI TEAM with project of Paintastic Kids, to be the winner in 23rd Harvard World Model Nations 2014 di Brussels, Belgia
ADMISSION REQUIREMENTS

Sriwijaya University welcomes foreign applicants from around the world from international students. The enrollment is opened once a year for full-time students prior to the beginning of the academic year (September incoming year) and throughout the year for exchange students who wish to study for only one semester.

To ensure of being considered for a program, students must submit the application at least 60 days before the beginning of the program.

The applicants must submit the following documents:
1. Two complete application forms
2. Two copies of officially certified degree and transcripts in English
3. Two letters of recommendations – these are to be sent directly from each recommender
4. An official score report of English proficiency (IELTS 5.5, or TOEFL 500) or an equivalent English test, valid at the time of the application
5. Four recent photographs (passport size, 4 X 6 cm)
6. A copy of the passport

The tuition fee varies from faculty to faculty. Therefore the applicants should contact Sriwijaya University before sending their applications. For international students, there is an extra charge of U$ 100 for registration process.

After completing the requirements, please send the documents to the following address:
